

Telemedicine Services

Offering a new front door to healthcare in Canada.

Telemedicine Services offer convenient access to quality healthcare when and where members need it most.

Members can visit with a certified physician by phone or video for a broad array of episodic healthcare issues. During the visit, they can receive a diagnosis, treatment recommendation, and even be prescribed medicine when necessary.

With Telemedicine Services, members can stop waiting for care and get back to feeling better, faster. And clients benefit by seeing an increase in productivity and a decrease in absenteeism.

Convenience

Members have 24/7 access to Teladoc by phone or app wherever they are located.

Greater access

Visits happen within hours of contact, so members can get the care they need when they need it, without the long wait.

Clinical quality

Each doctor is certified by the Canadian College of Family Physicians to ensure the highest standards of quality.

84%

of Canadians believe employers have a responsibility to support their employees' health.¹

\$2.7B

lost by employers per year due to family-related health issues.²

50%

of Canadians are not able to schedule a doctor's appointment on the same or next day.³

How Telemedicine Services works

Support features

- Members have 24/7 access to Teladoc by phone or mobile app, with a one-hour visit turnaround time
- Services are available in English and French
- When prescribing, members can receive a PDF of the prescription or have it sent to their pharmacy of choice
- Teladoc Health provides engagement support to create awareness and drive utilization
- Members are also covered with the same convenient service when they travel to the U.S.
- All physicians are certified and licenced by the Canadian College of Family Physicians

“I have had multiple employees reach out to thank me for letting them know about Teladoc. Our absenteeism and presenteeism are all down.” **Benefits Executive**
